

# ECOSCORE

1 Display of all facility locations | 2 Gauge color changes as points change | 3 LEED purchasing performance

## Track and improve your sustainability score with one simple tool

Gain insights into your cleaning program with Veritiv's exclusive EcoScore™ sustainability tool. EcoScore works in parallel with your LEAN cleaning program and analyzes your paper, liner, chemical and skincare purchases and processes against LEED® v4 O+M standards.

### HIGH PERFORMANCE REPORTING

It creates a report that can easily transfer to LEED® Online™, and also a proprietary Respect Score that your Certified LEAN Advisor uses to help you earn more certification points.

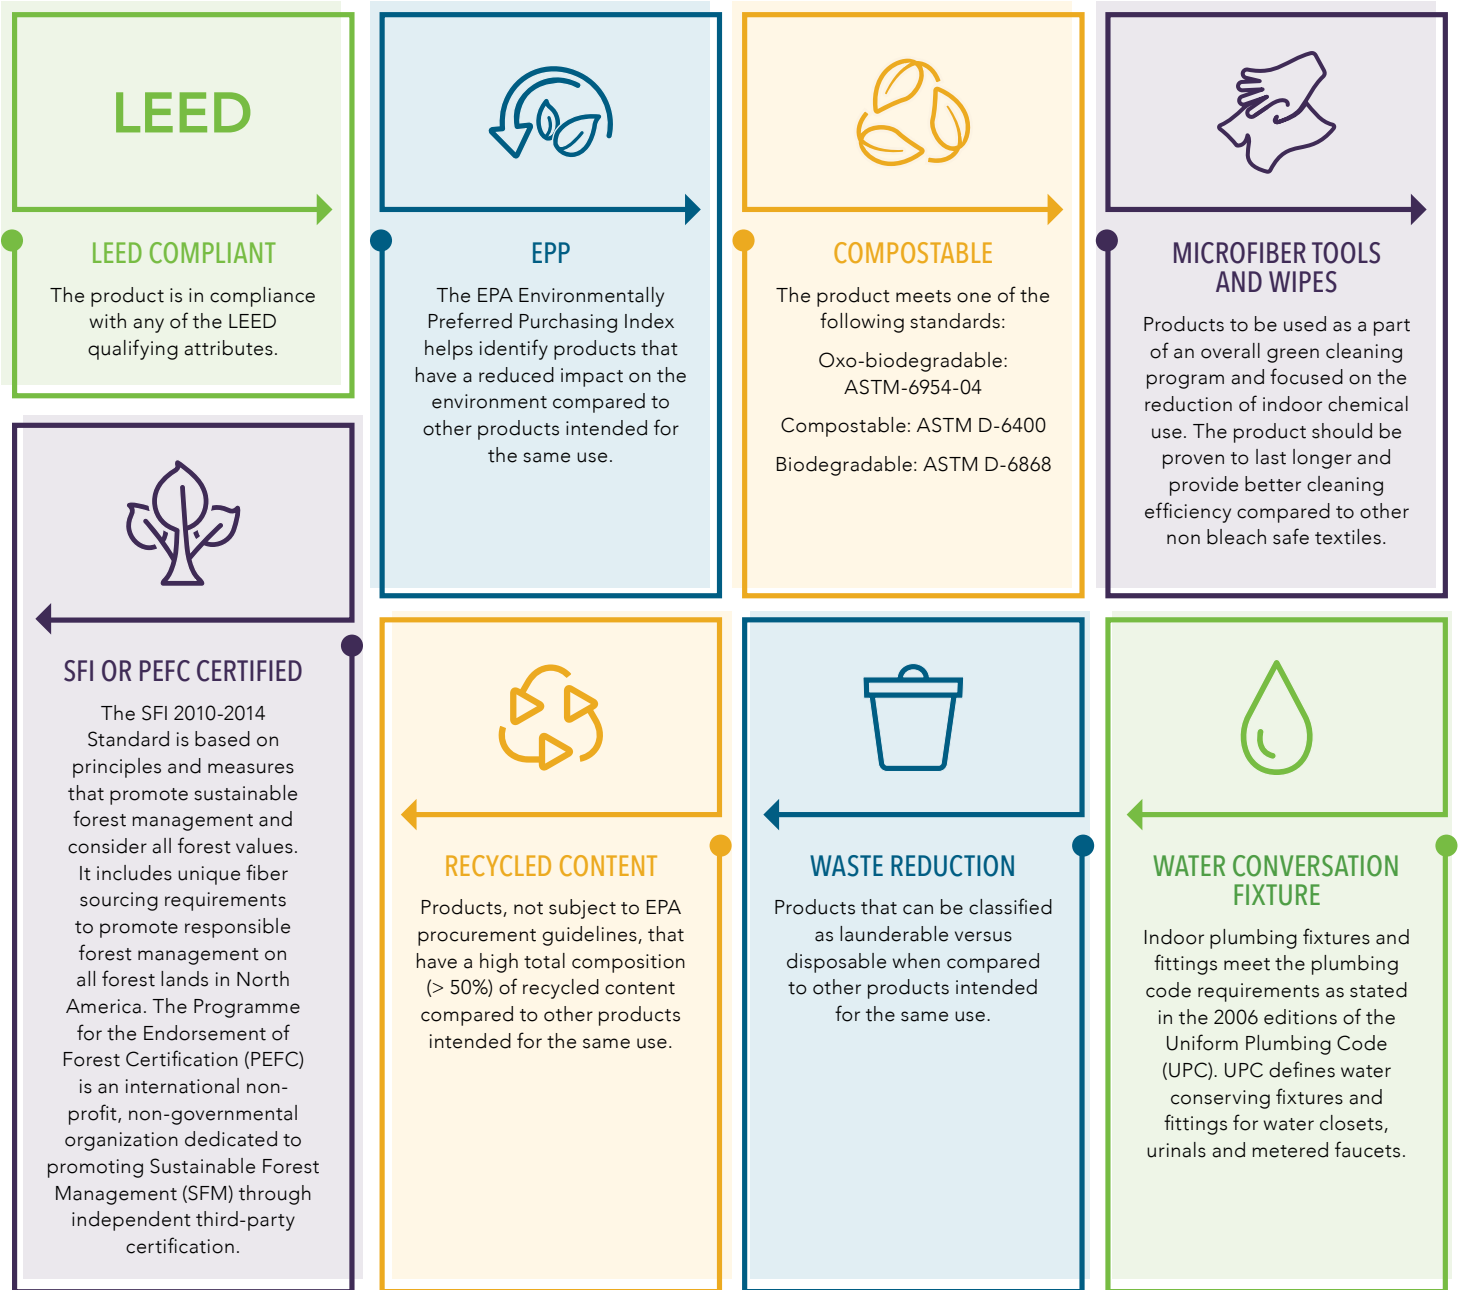

Even if you aren't pursuing LEED certification, your custom EcoScore report provides detailed green cleaning program information in an easy-to-read format suitable for sharing with tenants and employees.

For more information, contact your Certified LEAN Advisor or visit [veritivcorp.com/green-cleaning](https://www.veritivcorp.com/green-cleaning).

### Respect Score Definitions

Veritiv’s Respect Score includes products that have a positive environmental story, but are not covered by a LEED standard.

Veritiv will review new technologies and standards as they arise, and reserves the right to modify the Respect scoring process based on the changes in the industry. All claims are those of the manufacturer of the product.
